LETTER FROM THE EDITOR

Hello Readers,

In January at the Craft & Hobby Association Trade Show, FaveCrafts hosted a great networking event with some of the industry's best craft bloggers. These bloggers were given products from the event sponsors to bring their best project ideas to life. We used those projects to host a huge contest for the bloggers to compete for a prize and title of Best Blogger Craft of 2015.

All of those great projects are collected in this eBook, *The Best Blogger Craft Ideas 2015: Home Décor Ideas, DIY Jewelry, Easy Crochet Patterns, and More*. In this book, you will find jewelry projects, DIY home decor, knit and crochet tutorials, and so much more. Each project includes a full materials list and step-by-step instructions.

This incredible collection features projects made with products from [Clover](#), [Fairfield](#), [FloraCraft](#), [I Love to Create](#), [Little B](#), [MD Hobby & Craft](#), [Plaid](#), [Prima Bead](#), [Simplicity](#), [Sizzix](#), [Stencil](#), [STYROFOAM](#), and [Yarnspirations](#)! The ideas in this great eBook include products you have on hand or can easily find in your local craft store.

Be sure to visit these bloggers' sites and let them know that you saw them featured in *The Best Blogger Craft Ideas 2015: Home Décor Ideas, DIY Jewelry, Easy Crochet Patterns, and More*. Their sites include great free tutorials and project ideas for every season.

You can find more free craft projects, product reviews, and product giveaways at www.FaveCrafts.com.

Get crafting and creating with these projects to inspire you and your family and friends. Feel free to share this eBook, and be sure to sign up for our free eNewsletter to get handmade inspiration right in your inbox.

Enjoy creating!

Sincerely,

The Editors of FaveCrafts

Hand Knitted Infinity Scarf

Project by Lyneen Jesse for I am Dreaming of Castles

Materials

1 skein Bernat Mega Bulky Yarn
Scissors

Instructions

1. Tie tail around the thumb. Go behind the index finger, under the back of your middle finger, over your ring finger, and under your pinky. Wrap around the back of hand and in front (palm).

Start the Weave-Pull the first wrap over the second wrap and over the pinky, repeat on the ring finger, repeat on the middle finger, and the index finger. Wrap around the back of hand and in front (palm). Then repeat the weave until you have desired link.

Finish by taking the loop from pinky, and put it on ring finger. Pull the bottom loop up from ring finger and over to the back of hand. The loop from the middle finger and put in on the index finger.

Finally, remove the index finger do not let go of the loop. Cut the end of the yarn at about six inches, put it through the loop and tie off. Tie the ends together and weave the tails in the scarf!

Chunky Bowl Cover Free Crochet Pattern

Project by [Lorine Mason for It's Sew Lorine](#)

Materials

1 skein Bernat Mega Bulky Yarn
Crochet Hook P 11.50 mm
Scissors

Instruction

1. Attach yarn to your crochet hook. Chain 5 and form a ring with the stitches by slip stitching into the first stitch
2. Chain 3, Double crochet 12 stitches into the ring and join with a slip stitch into the top of the Chain 3.
3. Chain 3, then Double Crochet in the same stitch as the Chain 3. Double Crochet twice into each stitch all the way around.
4. Chain 3, Double Crochet in the same stitch as the Chain 3. *Double Crochet twice in the next stitch. Double Crochet once in the next stitch. Repeat from * all the way around. Join with a Slip Stitch to the top of the Chain 3.
5. Chain 1, Single Crochet into the back loop of the next stitch and continue all the way around. Slip Stitch to the beginning of the Chain 1. Note: This will create the ledge, perfect for the bottom edge of the bowl.
6. Single crochet all around the edge of the bowl, joining with a slip stitch. Repeat to create a second row.
7. Chain 3, Double Crochet in the same stitch as the Chain 3. Double Crochet into each stitch all the way around. Join with a Slip Stitch to the top of the Chain 3.
8. Chain 1, Single Crochet into the back loop of the next stitch and continue all the way around. Slip Stitch to the beginning of the Chain 1.
9. Single Crochet all around the edge of the bowl, joining with a Slip Stitch.
10. Using the remaining yarn, thread it through the top edge of each stitch, wrapping it around and over the next stitch. Hide the end of the yarn by threading it down through the stitches along the side of the bowl and trim. Turn the bowl inside out and form into desired shape.

30 Minute Arm Knitted Scarf

Project by Stephenie Hamen from The Vintage Prairie

Materials

1 skein Bernat Mega Bulky Yarn
Scissors

Instructions

1. First, cast on, starting with a slip knot. I cast on 12 loops to create mine nice and wide.
2. Next, begin knitting back and forth.
3. Cast off when you are at about 3 feet of knitted scarf. Make sure to leave a good length of yarn once you tie and cut it after securing your cast off row.
4. Fold the scarf in half, lining up the ends as best as possible.
5. Using the remaining length of yarn, weave it in and out, sewing both sides together. Tie off at the end and cut any remaining excess.

Quick & Easy DIY Planner

Project by Eileen Hull for Eileen Hull Blog

Materials

Mini Album Sizzix die
Textured Impressions Folder
Big Shot Machine
Extended cutting pads
Plaid Folk Art Home Decor Chalkboard Paint in Arrowhead
White twine
8 sheets white cardstock 6"x11" from Little B Paper Pack
Floral embellishments from Little B
Kitchen Labels die set
Sand paper

Instructions

1. Die cut a Mini- Album from mat board and eight signatures made with white sheets from the Little B Paper Pack.
2. Paint the front and back cover of the album with Plaid Folk Art Home Decor Chalk paint. I used Arrowhead, a soft gray.
3. Emboss each edge of the album covers using the Textured Impressions Folder by Stephanie Barnard. When the paint is dry, take a piece of sandpaper and rub the embossed areas of the bookcover until the design stands out. I embossed some of the book pages too for a little dimension.
4. To create each signature, fold a 6" x 12" sheet of Little B heavy white paper in half. Place fold just shy of the last score line on the die and run through Big Shot. This yields one book signature. You can cut two-three folded papers at a time.
5. Use twine to bind pages. Cut eight lengths of 14 of white twine. Tie each page into book by placing page fold inside book binding and tie on the outside in a double knot.
6. Die cut labels, arrows and accents to use in the book. Decorate the cover and store extra embellishments on the pages.
7. Write desired text on the front cover with chalk or a chalk marker. If you want to re-use the book for another project, simply wipe lettering off with a wet paper towel.
8. Add ribbon and embellishments.

Precious New Baby Scrapbook Layout

Project by Anita Scroggins for The Flamingo Chronicals

Materials

Little B Celtic Knot Punch
Little B Mini Dimensional Sticker Embellishments - Butterflies
Little B Mini Dimensional Sticker Embellishments - Cherry Blossoms
Little B Mini Dimensional Sticker Embellishments -Daisys
Little B Designer Die - Party
Little B Pull Flowers - Chrysanthemum
KaiserCraft Patterned Papers - Be-YOU-tiful
Whipped Spackle - Faber-Castell Design
Memory Craft
Petalo- Flowers
Scotch ATG and Quick Dry Adhesive
Stencil
Lace
Alpha Stickers - SNAP

Instructions

1. To create the frame behind my photo, I trimmed a 12" x 12" die cut sheet down to match my size.
2. Using a stencil I applied Whipped Spackle to my background page; when dry I gave it a spritz of ink.
3. Use foam tape and multi layers of paper to give the photo more dimension from the page.
4. Ruffle Pull Flower along side of photo, add a strip of lace on top, tucking both under the edge of the photo mat.
5. Add Dimensional Stickers and die cuts around page.
6. Add title with alpha stickers.

Vintage Thank You Card Craft

Project by [Megan Daves for I Teach Stamping](#)

Materials

Little B Tags Die Set
Little B Kraft/White Chipboard Pack
Little B Kraft Corrugate Tape
Little B Mum Decorative Tags
Little B Pull Flowers
Wrights Baby
Rick Rack
Inkadinkado Stamps
10 Second Bow Maker
Stampin' Up! Inks
Stampin' Up! Accessories

Instructions

1. Die cut large tag in Kraft card stock, Very Vanilla and Pink Pirouette. Trim down the pink and vanilla tags to nest together. Then trim off 1" from bottom of Vanilla tag.
2. On Very Vanilla background pieces, stamp flower image in Pink Pirouette ink all over. Sponge edges with Crumb Cake ink, then distress edges with scissors. Attach front piece to your Kraft card base. Attach inside piece to a piece of Pink Pirouette first (to help bring in more of the pink color) and then to the inside of your card.
3. To create the rest of your tag, stamp your flowers in Pink Pirouette ink, then stamp sentiment in Crumb Cake ink. Layer onto pink tag. Use sponge daubers to add ink to Little B Mum tabs, then adhere to bottom of the pink tag, removing excess tab pieces. Cut strip of Kraft Corrugate Tape down to $\frac{3}{4}$ " wide. Attach rick rack trim behind Kraft Corrugate Tape and then secure this to your tag. Layer pink tag onto Kraft tag. Then secure entire tag layer onto your card front. Finish lower right hand corner of tag with three small pearls.
4. Mix Pink Pirouette refill ink with rubbing alcohol into a mister. Spritz all over your Pull Flowers to die them from white to pink. Pull on your strings to create your flower. Attach a Faceted Button to the center of your flower.
5. Use the 10 Second Bow Maker with Linen Thread to tie a double loop bow, then attach to the middle of your Faceted Button.

Decorated Notebook Cover DLY Craft Project

Project by Michelle Brown from Mixed Media Art

Materials

Core'dinations Kraft-Core Nostalgic Collectins cardstock
Sizzix embossing folder & die
Little B tape and 3d stickers
FolkArt stencil
Wrights Jumbo Rick Rack
Aleene's Turbo Tacky Glue

Instructions

1. Choose a color of cardstock and add coordinating tape.
2. Insert into a Sizzix embossing folder and run through the Sizzix machine.
3. Use the Sizzix dies to cut out front window and glue contrasting coloured cardstock to back.
4. Add butterfly sticker as embellishment.
5. Options include running a piece of cardstock through the Sizzix embossing folder (dark blue) and then add patterned tape.
6. Another alternative is to only emboss a section of the cardstock (green) by placing the cardstock into the embossing folder with some of it hanging out. Then use tape and a sticker to dress up.
7. Adding rick rack is a fun way to add dimension to your notebook cover.
8. Or use paints and stencils to add an image and dress up with silver and pink tape.
9. When your cover is dry, cut a piece of card and some notepaper to a matching size.
10. Bind the pages together into a notebook. Here we've used the Zutter system.

Lace Victorian Hat DLY Craft Project

Project by Carolyn Wainscott for Carolyn's Canvas

Materials

Structure2

Stiffen & Stiffen2

Chicken wire from MD Hobby & Craft

Metal working gloves from MD Hobby & Craft

Plumes

Dove

Lace yardage and lace trim

Pearl, braid, cording trims

Instructions

1. Draft pattern.
2. Press lace yardage onto Stiffen.
3. Cut crown & hat body pieces from lace/Stiffen
4. Cut brim shape from chicken wire using gloves.
5. For brim-layer: 11" square of lace right side down, 11" square of Stiffen2, center chicken wire brim shape, 11" square of Structure2, 11" square of lace-right side up. Using press cloth, fuse all layers securely together according to instructions for fusibles - your brim now has lace on top and bottom and the chicken wire allows some shaping as desired.
6. Cut brim from created layered fabric from pattern.
7. Sew hat body pieces together all around to form circle by machine or hand-lace/fabric side out.
8. Sew crown onto hat body by hand
9. Brim - clip from center to brim as per pattern, glue to inside of hat, glue fabric/ribbon strip around inside to cover and make nicely finished.

Instructions

1. Take out your chicken wire and with gloves wrap it around your body for your desired length. Then cut.
2. Shape your chicken wire into a skirt then try it on. Adjust accordingly, then cut of any sharp ends.
3. Using a heart die cut and the pattern cut out the hearts. I would recommend leaving the pattern folded to cut out the hearts faster.
4. Then glue that hearts tip to tip with the tacky glue.
5. Attach the hearts to the chicken wire frame by gluing a line on the string of hearts and folding over $\frac{1}{2}$ inch, repeat along the top and in the middle to get volume.
6. Spray the top gold and spray down pulling farther and farther away to create a ombre effect and then spray the white paint on the edge lightly and add the glitter paint. Seal, then let dry.

Diy Painted Jugs and Spring Flowers

Project by [Julie McGuffee](#) for [Life in the Craft Lane](#)

Materials

Little B Pull Flowers
Mini foam balls
etchall dip'n etch
Glass Milk Bottles
Lo-temp Glue Gun
Flower Soft Sprinkles
Crafts Picks
White Glue
Green Straws

Instructions

1. Prepare the glass bottles following instructions on the container of dip'n etch. Pour the etching liquid into one bottle. Let sit for 15 minutes, then pour the liquid from the first bottle into the second one. After 15 minutes pour the liquid from the 2nd bottle into the 3rd. Let sit for 15 minutes then return the liquid to the container. This product is REUSABLE, so you can etch a lot of glass with it.
2. Rinse each bottle thoroughly then dry with a soft cloth.
3. Now let's add some color. Because the glass is etched on the inside, it now has "tooth" (a rough surface), so you can use regular acrylic paint for this technique. I poured about half of the paint into the bottle then carefully, holding the bottle on its side, I turned it around slowly until the inside was completely covered. Pour the excess paint back into the paint bottle. I love to experiment, so I used Patio Paint to color the blue bottle. Patio paint has a thinner consistency, so it was easy to work with. The pink and yellow bottles were coated on the inside with regular acrylic paint. This paint had a much thicker consistency, so I thinned it with a little water before using. Both paints worked well. Let the paint dry at least 24-48 hours and DO NOT fill with water. These are intended for decorative purposes only. In case you're wondering, I tried glass paint with this technique on unetched glass, but the coverage wasn't quite as even as I would have liked. Now that you've colored the bottles, set them aside to dry while you make the flowers.

4. Cut 18" of each color of ribbon. Pull the thread from both ends to gather then tie the ends together in a simple overhand knot.
5. To make the center, push the end of the craft stick into each of the Smoothfoam balls. Smoothfoam is very dense, so you may need to make a pilot hole with the tip of a craft knife first.
6. Using the craft stick as a handle, coat the surface of the ball with white glue. The surface is nice and smooth, making it easy to work with. When the surface is covered, sprinkle with Flower Soft sprinkles. Let dry.
7. Push the craft stick thru the center of the flower, then secure with cool temp glue at the base of the covered ball.
8. Trim the craft stick on the the under side of the flower to 1" then glue the end of the straw, over the craft stick, to the base of the flower. The "bendy" part of the straw will allow you to position the flower if desired.

Proggy Rugging Rainbow Pillow

Project by [Lorrie McCullers](#) for [Forty11 Designs](#)

Materials

OlyFun fabric by Fairfield
PolyFil polyester fiberfill by Fairfield
proggy tool by Craft Yourself Silly
Burlap
Fleece

Instructions

1. Cut fabric into strips of approximately - wide and 3 long. You need enough fabric for about three times the area of your finished piece.
2. Get a piece of loose weave burlap. It needs a more loose weave so that the proggy tool will go through the holes more easily. Size of the burlap depends on how large you want your pillow.
3. Fold one edge of the burlap over about 2 inches. Always work from the back of the project (the front will be the fluffy side).
4. Starting in the middle of the row, poke a hole through the burlap with the proggy tool. Use the proggy to poke the fabric through the hole. Then move over three strands of burlap and poke another hole, weaving your fabric into this hole.
5. Move over three more strands of burlap and repeat the process until you get to approx. 2 inches from the ends. Fold over the ends and repeat steps 4 and 5. You will fold over all 4 sides of your burlap until all sides are finished and you have a square.
6. Once your borders are done, continue filling in the middle. You can work in rows or just random -- its up to you!
7. After the burlap is filled in, take a piece of fleece and cut it approx. 2 inches larger on all sides than your burlap square (so if your burlap square is 12x12, then your fleece should be 16x16).

8. Cut fringe into the fleece edge with each fringe strip measuring 2 inches by -.
9. To attach the fleece backing, use your proggy tool to poke the fabric through already established holes once (the backing and fabric will share holes). Repeat until 3 edges are complete. Leave the 4th edge open so you can stuff the pillow.
10. Stuff the pillow with polyester filling.
11. Finish last edge with the fleece backing.

Recycled Wine Crate Footstool DIY Home Decor

Project by Stefanie Girard for Craftside

Materials

Foamology Twelve Piece Design Foam from Fairfield
Recycled wine crate
Scrap Wood
12 pieces of fabric
4 wood ball feet
Buttons

Instructions

1. The cushion top is made with Foamology Twelve Piece Design Foam and 12 of my favorite quilt fabric pieces along with some scrap wood, buttons and 4 wooden ball feet.
2. My wine crate wasn't the exact size of the Foamology Twelve square Foam piece so I made the lid a bit bigger. I didn't know exactly how much extra puffy the foam would be with the fabric on it so I decided to cover it first before I made the frame lid.
3. I wanted to fussy cut some of the fabric to include images and text so I made a velum template.
4. Once my foam was covered I measured it and cut some strips of wood to make the frame and a piece for the lid base.
5. I glued the frame together and made sure it was square with my quilt ruler and the lid base as a guide.
6. To embellish the cushion frame I cut the shanks off of a variety of buttons **USING EYE PROTECTION!** as the shanks can go flying even if you are holding the button with the shank side down.
7. I made 4 rows of buttons to make sure I had a nice variety for each side. All that was left to do was glue the buttons around the frame boarder and the ball feet on the bottom of the wine crate.
8. Then I put the cushion into the frame and glued it down to the lid base holding it secure with a c-clamp on each corner.
9. I glued dice on the underside of the lid in each corner so that the lid would not slide around.

Project by Debra Quartermain for Debra Quartermain Design

Materials

Bernat Mega Bulky Yarn Gold (1 Skein will make several ducks)
Styrofoam Brand Foam: 4", 6" balls
9" x 12" Kunin Prestofelt Craftcut Copper Canyon
2-12mm Black Beads
1-12" x 1/4" Dowel
1/2 yard craft ribbon
Flower embellishment
Aleene's Turbo Tacky Glue from I Love to Create
Printable Pattern

Instructions

1. Begin at center end of ball, glue and wrap yarn. Continue until ball is completely covered. Repeat for second ball.
2. Cut dowel into 3 equal pieces. Insert one piece of dowel between the two balls using the Turbo Tacky glue.
3. Print out pattern. Draw pattern onto paper backing of Prestofelt. Cut out each piece.
4. For legs wrap dowels with yarn leaving a 1/2" at one end. Glue at both ends.
5. Peel off backing of felt wing. Place the yarn back and forth across the adhesive back of the felt. Trim yarn. Repeat for second wing.
6. Peel backing off of both beak pieces. Place a small amount of yarn in center of one beak piece for stuffing. Place adhesive sides together around edges. Press to face, adhesive on felt with adhere to face. Insert beads on either side of of beak pressing into face. Glue on place.
7. Trim top of wings off and glue to either side of body as shown.
8. Peel backing off feet pieces and press together. Glue to ends of dowel. Insert opposite ends of dowels into body.
9. Cut a 12" and 3" piece of yarn. Fold the 12" piece back and forth three times. Wrap 3" piece around one end and tie. Trim ends. Glue to duck back for tail. Tie on bow and add flower.

Project by Jennifer Priest from [Hydrangea Hippo](#)

Materials

1 skein Bernat Chunky Yarn in Gold
Floracraft Wreath Form
Aleene's Fast Grab Tacky Glue from I Love to Create
Circle Die #1 by Sizzix
Flower Die by Eileen Hull for Sizzix
Ric Rac by Wrights
Swarovski Crystal Beads by Prima Bead
Dimensions Hedgehog Cross Stitch Kit from Simplicity
Kunin Eco-Fi Premium Plus Felt

Instructions

1. Wrap the Floracraft wreath form with Bernat Chunky Yarn, adding a bit of Aleene's Fast Grab Tacky Glue under the yarn every inch or so.
2. Following the instructions on the package, complete the Dimensions Hedgehog cross stitch project.
3. Roll the ric rac onto itself to create a ric rac flower. Use hot glue to secure the ric rac in place every few inches.
4. Die cut flowers with a Sizzix die from a Simplicity pattern. Thread Swarovski beads from Prima Bead onto wire and insert into the middle of the flower layers. Fluff the layers.
5. Die cut 6 circles from felt with a Sizzix Circle #1 die. Fold 4 of the circles into quarters and glue to one of the flat circles to form a pie cut into quarters. Fold the final circle into quarters and glue into the center of the four other quarter-folded circles. Fluff to make a flower.
6. Adhere the elements to a strip of chipboard. Adhere the chipboard strip to the wreath form using hot glue.

Project by Margie Higuchi from [SCRAPS of \(my\) Life](#)

Materials

Plaid: FolkArt Home Décor Chalk Rich Black Paint

Little B LLC: Pull Flower - Roses

iLoveToCreate: Aleen's Always Ready Tacky Glue Turbo

Simplicity Creative Group: ¼" Baby Rick Rack

Sizzix: Core'dinations Kraft-Core Nostalgic Collection by Tim Holtz For Sizzix

Disposable Silver Tray

Foam Brush

Scrapbook Adhesives by 3L: Dodz XL (extra large adhesive circles) and 3D Foam Squares, White Small

Hazel & Ruby: Chalkboard Kit (White Chalk, White Pencil and Practice Slate)

Spellbinders Creative Arts: S4-328 Foilage (Die #6)

Instructions

1. Apply FolkArt Home Décor Chalk Rich Black Paint in the center of tray. Paint three coats with dry time in between coats.
2. While waiting for paint to dry, create Little Bs Pull Flower Roses as directed on package. Make two of each color. Set aside.
3. Once the last coat of chalk paint is dried, edge the painted area with Baby Rick Rack and Aleen's Always Ready Tacky Glue Turbo. Let dry.
4. On the computer create a sentiment to fit the center of tray and print out. I also drew some accents around the words. Chalk over the back of the copy paper of sentiment with white chalk. Place chalked side down on to the tray and beginning tracing the words. The white chalk will transfer to the painted area. Use white marker to finish the sentiment.
5. Cut and emboss Foilage set Die #6 (the smallest size die is #1) with No. 11 Green cardstock for a total of six die cuts. These will be placed behind the Pull Flower Roses for accent.

Rhinestone Embellished DIY Wine Bottle Craft

Project by [Shawn Mosch](#) for [Crafty Chic's](#)

Materials

Wine bottle
Rhinestone sticker sheet
1 skein Bernat Bulky Yarn
Corrugated tape
Butterfly stickers from Little B

Instructions

1. Since a couple of the wine bottles my sister gave me have the lettering and label information printed right on the glass, I knew I was not going to be able to use these bottles for painted projects.
2. See what I mean? I would have to do SO MANY LAYERS of paint to fully cover and hide the words.
3. So on to plan B . . . Bernat Mega Bulky yarn, rhinestone sticker sheets from The Buckle Boutique and embellishments from Little B. {wow . . . I guess that really is Plan B . . . lots of companies with the letter B in the name}
4. First I used the rhinestone sticker sheets from The Buckle Boutique to cover the main portion of the bottle. This fun animal print is from the new Tween Quad sheet. The quad sheets have 4 different patterns on one sheet, so you can get more variety out of every sheet. I love that these rhinestone are all on one large sheet with an adhesive back. I just peeled part of the backing off and lined it up on the bottle . . .
5. Then as I rolled the bottle and continued to peel off the backing the bottle basically covered itself in rhinestones. Quick, easy and beautiful! And since this is from the Tween Quad sheet, I still have 3 other patterns left in case I want to make this same project again in a different pattern.

7. Next I added some glue to the top of the bottle, and dripped a little down the back. I did this so I could start the tail down the back and have it tucked under the yarn.

8. Once I wrapped the yarn around the top I let it sit for a little while. I wanted to make sure that the yarn was secure at the top before I started to wrap it around the bottle. In this photo you can see the little tail I left hanging down. As I wrap the yarn around the bottle I will go right over that so that the end of the yarn is not exposed.

9. Then I applied more glue and just wound the yarn around the bottle, making sure not to leave any gaps between the rows.

10. After I was sure that the glue had dried under the yarn, I used the corrugated tape from Little B to cover the last parts of the bottle. Just the the rhinestone sticker sheets, this tape has an adhesive back, so I just needed to cut off the right amount, peel off the backing and stick it on the bottle.

11. When I finished with the corrugated tape I felt like it still needed "something". I used a few scraps of the rhinestone sticker sheets I had left over from another project along with butterfly stickers from Little B

12. I love how these dimensional butterfly stickers look like they are going to fly right off the bottle. And look how great the colors go with the pattern in the rhinestone sticker sheet! It is like all of these products were made to go together.

Metal Stamped Heart Valentines Day Craft

Project by Margot Potter for The Impatient Crafter

Materials

Set of 3 Galvanized Steel 6-x4.5 Hearts from Target Dollar Bin

Copper Sheet 20 Gauge

Martha Stewart for Plaid Multi-Surface Paints in: Blue Calico, Pea Shoot, Blue Sky, Poodle Skirt, Beetle Black

FolkArt Home Decor Wax Sealer-Clear from Plaid Enterprises

Jute Craft Baker's Twine Cording

Pink and White Baker's Twine

2 6mm Jump Rings Silver Plate

Uppercase 3/8" Metal Stamps

Lowercase 1/4" Metal Stamps

Metal Hole Punch Pliers for Sheet Metal

ImpressArt Steel Block

ImpressArt Brass Stamping Hammer

Folkart Home Decor Sanding Foam Block

Martha Stewart Brushes, Detailing, Set of 5

Martha Stewart Foam Pouncer

Metal Stylus or other metal tool for scratching into paint

Cotton Swab

Paper Towel

Instructions

1. Brave Heart Metal Stamped Valentien Heart: Remove red ribbon from heart. Use sanding block to roughen up surface of heart. This will help the paint adhere better. Use metal stamps to stamp BRAVE in center of heart. You really, really have to hit these hard to get them this deep. Start with the A in the center and then stamp out from there. Flip heart over to flatten stamped areas after stamping if indentations are too deep. Apply black paint with a cotton swab. Wipe off with a paper towel. Squeeze out a little bit of the pink, green and blue paints.

Metal Stamped Heart Valentines Day Craft

Project by Margot Potter for The Impatient Crafter

Apply a small amount of each color to one section of your paint pouncer (keep them separate so they dont get muddy.) Use paint pouncer to dab paint across surface of heart, twist and turn it so you get a nice blend. Use a paper towel to blend it further. Once paint has dried, seal with a coat of wax. Add jute twine so you can hang your creation.

2. Wild Heart Metal Stamped Valentine Heart: Remove red ribbon from heart. Use sanding block to roughen surface of heart. Stamp wild heart. on heart. This is more of a free form stamping, no need for perfect alignment. Alter the stamp placement as shown. Use the awl to add small stamped dots around edge of heart. Apply black paint to stamped letters using a cotton swab. Wipe off with a paper towel. Paint the edge of heart with darker blue. Allow the paint to dry. Use small paint brushes to add half dots along edge of heart as shown. Add jute twine so you can hang your creation.

3. Sweet Heart Metal Stamped Valentine Heart: Remove red ribbon from heart. Roughen surface of heart with sanding block. Use paint brush to apply 1 blue circles to heart in a pattern. Apply pink paint in a ring around blue hearts. Apply smaller green dots in varied placement on blue circles. Add green leaves using edge of brush. Once paint has dried, use a stylus to scratch into paint as shown. This adds a little movement and dimension. Cut a small piece of copper sheet using shears. Stamp sweet into metal. Apply black paint with cotton swab, wipe off with paper towel. Use hole punch to add a hole to the top left and right corner of stamped blank. Attach jump rings. Cut some twine and attach to jump rings as shown. Dab a little glue on the knots to secure them. Add jute twine so you can hang your creation.

Dreamy Chicken Wire Crown DIY Craft Project

Project by Cheryl Waters for Artsy Findings

Materials

MD Hobby and Crafts Chicken Wire and Gloves

Fiskars Amplify Scissors

Little B tapes: Baby Blue, Silver Lace and Corrugated
Cardboard tape

Stencil1 Swallow Stencil

Fairfield World Products: Stiffen Material

Vintage: Cupcake Tin, Paper garland, Dresden.

Misc. Washi tape, acrylic paint, spray ink (Clearsnap), Image
of Dancing Girl (The Graphics Fairy), Upholstery strips,
Feather, Ribbon, Tacky Glue (Aleenes), Glitter (Clearsnap by
Donna Salazar).

Instructions

1. Wearing and using MD Hobby and Crafts gloves cut the chicken wire top into the shape of a crown. Trim metal pieces as necessary with Fiskars mixed media Scissors.
2. Adhere Little B washi tape to the crown top by wrapping around the top edge. This serves a dual purpose; for decor purposes but also to help hid sharp edges that may protrude.
3. Next, adhere vintage paper trim, silver lace washi tape, misc. script washi tape and corrugated cardboard tape to the base of the crown using Tacky Glue. Add a bit of acrylic paint to cardboard tape if desired.
4. Make fans from corrugated cardboard tape. This is easy to do because the corrugated tape is self adhesive. Add to the top of each crown point using tacky glue and add a fan to the base (leaving room for the cupcake tin).
5. Make three washi tape flowers by wrapping and twisting the tape around into a flower/rose shape. Add one to each side point along with the dresden. Add last one to the base. Make fabric flowers from upholstery strips.
6. Print dancing girl image and cut her out. Adhere to the center of the cupcake tin. Dip the cupcake tin into tacky glue and then into glitter. Glue tin onto base of crown and allow to dry.

8. Stencil the swallow bird onto a piece of Stiffen material using Clearsnap Smooch Spritz. Cut out bird. Take a piece of wire and wrap around a pencil providing a spiral type of effect. Attach the wire to the bottom of the base using wire. Adhere the bird stencil to the tip . . . thus making the bird look as if it's in flight.

3. Fold edges of each piece back 1/2" and use staple gun to mount to two slanted roof pieces. Mount 11" x 11" piece to top of birdhouse to create table top. Fold edges of 12" x 12" metal piece back 1/2" and use staple gun to mount to flat 11" x 11" table top (staples on folded edge).

4. Drill 3 evenly spaced 1- 1/2" holes in center of birdhouse, and one in each slanted side roof piece. Drill 3/8" holes beneath each large hole.

5. Paint birdhouse with FolkArt Home Decor Chalk paint. Let dry. Paint 2-1/2" band of Sandcastle paint beneath each hole on center of birdhouse. Let dry.

6. Ink birds on a branch stamp with permanent black ink. Place Craft Attitude film onto Multi-Mat and use Get-it-Straight Laser Square to help align separate rows of stamped bird images as shown. Cut into strips. Use permanent glue stick to mount stamped Craft Attitude to Sandcastle sections.

7. Cut black ric-rac and mount to top and bottom of each painted strip. Cut twigs and use Beacon 527 to mount in 3/8" holes.

8. Seal by coating all non-metal surfaces with outdoor Mod Podge.

9. I first saw a chicken wire bird on Pinterest - and was inspired to try it myself with the chicken wire I received from MD Hobby & Craft - I found some photos online for reference and then free-form created the little bird.

Decorative knobs
Plaid Craft Folk Art Chalk Paint Base Color (White shown)
Plaid Craft Folk Art Chalk Paint Top Color (Imperial Shown)
Plaid Craft Wax Finish (Clear Shown)
Plaid Craft Wax and Chalk Finish Paint Brushes
Sandpaper
Lint-free rag
Soap and water (for clean-up)
Paper plate
Eye protection (when using tin snips cutting metal)
Screwdriver or drill and screws
Hammer
Spring load clamps

Instructions

1. Prepare shelf-thoroughly clean off shelving unit and repair any loose pieces, nailing and or gluing back into place.
2. Measure the opening of the shelves, and then create door frame using 1" X 2" pieces.
3. Apply base coat of Plaid Chalk paint to surfaces of shelf and door frame. Paint will dry quickly especially if the wood is "thirsty" but the manufacturer recommends allowing paint to cure for 2 hours before applying additional coats.
4. Apply top color of Plaid Chalk Paint. Allow to dry and cure as well.

5. Using sand paper, gently sand around areas you want to expose base color. For a vintage inspired piece consider places that would receive a lot of handling, or have something easily brush up against.
6. When finished sanding, wipe a rag over sanded surface to remove dust and debris from sanding.
7. Coat entire surface of shelf and frame with Plaid Crafts Folk Art Wax Finish. Allow to dry (approximately 1 hour) and then buff to desired sheen with lint free cloth.
8. Unroll MD Hobby and Craft Chicken Wire. The Chicken Wire rolls comes folded in half. The project as shown kept wired folded in half and had a double layer on the doors. Trim chicken wire to desired size using tin snip. Insert on the back of the wood door frames stapling into place with staple gun. Be sure to wear eye and hand protection as metal edges are sharp, and pieces go flying when they are being trimmed with tin snips. Use needle nosed pliers, to bend in any sharp edges.
9. Install hardware for hinges and attach doors.
10. Install knobs on front of doors.

Stenciled Metal Vase

Project by Carmen Flores Tanis for Bzzy Little Bee

Materials

Plaid FolkArt Home Decor Chalk Nantucket Blue
Plaid FolkArt Home Decor Wax - Clear Wax
Plaid FolkArt Home Decor Wax - White Wax
Plaid Martha Stewart Crafts Multi-Surface Chalkboard
Acrylic Craft Paint Black
White Acrylic Paint
Thrift store vintage frames
Porcelain bird ornaments
Chalkboard Marker
Branch from my garden

Instructions

1. Wrap a strip of masking tape around the bottom edge of the vase.
2. Wrap three more strips of masking tape around the vase, evenly spaced.
3. Paint the areas between the paper tape strips with Beetle Black paint. Let dry.
4. Peel way the masking tape to expose the unpainted metal vase stripes.
5. Squirt a small amount of Brushed Pewter paint onto the plastic dish. Load the paint sponge with a small amount of paint by dipping the sponge lightly into the paint and then tapping it on the edge of the plate to remove most of the paint.
6. Starting at the top edge of the vase, hold the stencil in place with one hand and pounce the loaded paint sponge onto the stencil with the other hand. By pouncing or tapping the sponge up and down rather than sweeping it sideways, you will get a nice clean image with no blurry edges.
7. Carefully lift the stencil and reposition it to repeat the above painting step. Continue until the entire vase is decorated.

No Sew Patchwork Panel

Project by [Lisa Fulmer](#) from [Lisa Liza Lou](#)

Materials

Foamology Design Foam with Stickybase
Bernat Mega Bulky Yarn
Cotton fabrics
Aleene's Fast-Grab Tacky Glue from I Love to Create
Aleene's Fabric Fusion Peel and Stick Tape from I Love to Create
Bone folder
Scissors
Buttons

Instructions

1. Cut fabrics into squares about 3/4" larger than the pre-cut squares in the design foam.
2. Tuck each piece of fabric into the foam, using the bone folder to slide the fabric edges into the slits.
3. Remove the sticky-back paper liner from the back of the panel and center it, sticky side down, on top of an 18" square of fabric.
4. Fold each side of the backer fabric up along each edge of the foam panel, folding and securing with Fabric Fusion tape flush to the top of the panel, tucking and covering the edges of each square. Miter the corners like you're wrapping a gift box.
5. Glue a strand of yarn around the top edge and glue a button in each corner to frame the panel.

Glowing Balloons Night Light DIY Bedroom Decor

Project by [Gloria Uhler for Domestic Diva](#)

Materials

Fairfield Oly Fun fabric
Tulip Beads In A Bottle
Elmer's Extreme glue stick
Aleene's Turbo Tacky Glue from I Love to Create
Floral Craft Styrofoam 2" ball from DOW STYROFOAM
Clover Wonder Clips
Battery operated 18 light string
3" unpainted wood photo cube
Hot glue gun (on low setting)
Testors Aztek 9444 Peach and 9440 White Paint
Aztec Airbrush
Sculpey Red, Black and White Premo clay
Boa Craft fur
Metallic silver stars
Floral stem
Pencil
Drill
Cardstock
Wood pick

Instructions

1. Align the battery pack to the back of the photo cube and place a pencil mark just above the battery case.
2. Make another mark about .5" to the left of the wire photo holder in the top of the cube. Drill holes in the two marks large enough to pass the light string through.
3. Drill or saw an opening in the bottom of the cube large enough to accommodate a couple of your fingers for threading the light string into the cube top.
4. Cut six 3 squares in a variety of Oly Fun fabric colors. (All the fabric pieces can be cut on a Cameo stencil cutting machine.) Glue one square onto the back of the cube with Elmers Xtreme glue stick. Apply the glue to the wood and smooth on the fabric. Poke a hole in the fabric to match the drilled hole. Pass the light string through the fabric and out the hole at the top of the cube.

- Hot glue the battery pack to the back of the cube. Pull the light string to eliminate any slack in the wire.
- Apply a gold X on three of the fabric squares with Beads In A Bottle. When dry, attach silver stars in the center with hot glue. Attach the gold X squares squares to the front and two sides of the cube with the glue stick. Glue a plain square to the bottom of the cube. Make a cut halfway through the remaining square and slip it around the light string and photo wire on the cube top. Bring the slice together and glue in place.
- Create the back flap by cutting two fabric and two card stock pieces to measure 3" x 4.25". Use the glue stick to sandwich the card stock pieces inside the fabric pieces. Glue the layers to the back of the cube just above the battery pack. Use Wonder Clips to hold the layers together until they dry. Bend the flap back at an angle. Hot glue silver stars in each corner.
- Cut six pairs of ballon shapes in a variety of fabric colors to measure about 1.25". Apply Aleenes Turbo Tacky Glue to the perimeter of the balloons and put the matching color on top. Leave the center bottoms open 1/4".
- Gather the 18 bulbs on the light string into six groups of three. Bend each into a small package to fit inside the fabric balloons. Hot glue the ballon center bottoms to prevent the wires from pulling out. Push a floral stem into the hole in the top of the cube. Slip the other end into a balloon and bend it to support the light string and other balloons.
- Cut 14 discs measuring 2 round in a variety of colors. Cut a hole in the center of each and a slit from the outside edge to the hole. Use the glue stick to match together two different colors until you have seven discs.
- Slip each disc around the photo cube wire. Overlap the ends until the disc curves upward or down and hot glue the ends together. Repeat with all seven discs stacking them on the wire.
- Stick a wood pick in a Floral Craft styrofoam ball. Airbrush the ball a flesh color by mixing Peach and White paint.
- Roll out bits of Premo Red, black and White clay to create eyebrows, mouth, eyes and a nose. Stick a toothpick in the nose. Bake the clay for 30 minutes in a 275 degree oven. Allow to cool.

DIY Chicken Wire Frame

Project by Latisha Yoast for A Busy Little Crafterbee

Materials

MD Hobby & Crafts Chicken Wire
MD Hobby & Crafts Gold Foil
MD Hobby & Crafts hobby shears
MD Hobby & Crafts gloves
Antique white paint
Wood frame
Spellbinders butterfly dies
Clothes pin
Scrapbook Adhesives by 3L Dodz small
Paint brush
Hammer
Finishing nails or staple gun

Instructions

1. Attach chicken wire to the back of the frame either using finishing nails or a staple gun.
2. Trim off excess wire, and hammer the edges into the frame (so it doesn't scrape your wall).
3. Using Antique White paint, paint the frame and chicken wire. Paint the clothespins as well.
4. Paint the clothespins as well
5. While the paint is drying, die cut the gold foil using a butterfly die. If you want texture to the butterfly, run through a diecut machine using an embossing folder or texture plate.
6. Adhere the gold butterfly to the clothes pin, using a Scrapbook Adhesives by 3L Dodz small.
7. Hang the frame.
8. Add jewelry, photos, and quotes to the frame.

Ice Cream Sandwich Boxes

Project by Laura Russell for Make Life Lovely

Materials

Sizzix Cookie Box Die
Sizzix Big Shot
Sizzix Little Sizzles Mat Board
Sizzix Extended Cutting Pads
Plaid White Collage Clay
Glue Gun
Sprinkles
Plaid Country Tan Paint
Paintbrush
Optional: Wax Paper and Baker's Twine

Instructions

1. Start by making a Sizzix sandwich. Stack an extended cutting pad, the mat board, the cookie box die cutting side down, then the other extended cutting pad on top. Roll it all through the Big Shot, and pull out the pieces. Repeat for as many cookies and pieces that you need in your desired colors.
2. To assemble the ice cream sandwich box, take the longest piece, and bend the end tabs down.
3. Use a glue gun to glue the tabs down and around the piece with 11 sides.
4. Glue the small tab to the inside back of the box, and fold along the score line.
5. Hot glue the scalloped top and bottom of the box.
6. Apply your preferred tip to the Collage Clay. I used the star tip (since it let the most clay come out at a time), and squirted a large dab at a time.
7. I started by using a plastic spoon to spread the Collage Clay onto the middle ice cream part of my sandwich, but quickly realized that it was easier and faster (and a whole lot more fun) just to use my fingers. The great part about this is that it really doesn't have to be perfect, since there will be sprinkles covering it anyway.

Ice Cream Sandwich Boxes

Project by [Laura Russell](#) for [Make Life Lovely](#)

8. I applied the Collage Clay a section at a time, then sprinkled sprinkles onto that section. I used a clean finger to gently press down on the sprinkles so they stayed in place, and then moved on to the next section and repeated. My first box took me about 20 minutes for this part, but my third box took less than 5 minutes- it really does go quickly! Now comes the hard part- waiting. The Collage Clay needs time to fully dry, and you don't want those sprinkles falling off when you finish the rest of the steps! Definitely follow the waiting time recommended on the box.

9. If you used white mat board for the top and bottom of the box, you might want to paint the cookie part a dark tan/ light brown color so it looks more realistic. I used a foam brush to paint on the Apple Barrel color Country Tan on the top cookie, which I thought was the perfect cookie color. I used a smaller paintbrush to paint the smaller edge of the bottom cookie. For one of the cookies I used black mat board, which looked great too, and required no painting.

10. To finish off a couple of the boxes, I cut a thin strip of freezer paper (since somehow I was out of wax paper), wrapped it around the ice cream sandwich, and used a tiny dab of hot glue to secure the piece at the bottom. I wrapped a piece of Bakers twine around the center of the freezer paper a few times, then tied a bow around the top.
